

Explanation of purchase books

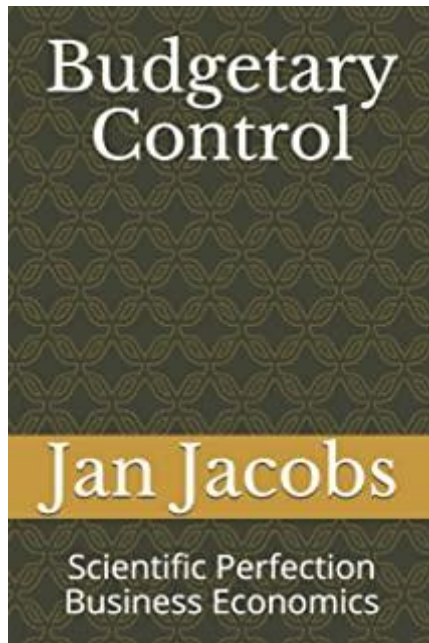

This rule applies to almost all books on this website. Go to your nearest amazon website, for example www.amazon.nl

All

In this general search screen, enter your desired ISBN number, for example

All ISBN 9798708341112

And then you will immediately see this book.

Budgetary Control: Scientific Perfection Business Economics

Engels editie

Jan Jacobs

[Paperback](#)

€ 52,48

This is one of many books and there are only 2 exceptions to this normal ordering rule (and that is of course also neatly stated with those 2 books). There are also alternative websites, for example www.bol.com and if you enter the same ISBN number there, you will find the same book again (not always, but usually). On bol.com you can also find books that are not on any Amazon website. The 2 exceptions mentioned are partly also available at bol.com and in any case at www.boekengilde.nl/boekenshop and enter the ISBN numbers of these 2 exceptions: ISBN 9789463236409 and ISBN 9789464026405

At www.managementboek.nl you must enter numbers but without the letters ISBN

So just enter the numbers 9789463236409 and 9789464026405

See these 2 books, here on jbadatabank.com it is explained in more detail, and if you wish, the purchase of them is much easier to carry out, that is also precisely indicated.
